TO WHOM IT MAY CONCERN:

Subject: Southwest Corner of Section 33-T15N-R7W, U.S.A. Lands

On May 6, 1987, I found a 5"x5" stone, up 3" at the remnants of an old "T" road intersection out in the marsh. There were no ties near. I set an iron pipe on the South side of the stone and also a U.S.G.S. witness sign and post on the South side. The sign is for witness purposes only. The river was down to 4.9 so Perry Dahl and I were able to walk to the corner. Corps notes, dated September 27, 1932, call for a 6"x6" cut stone, 4" above the surface, at a road intersection. The old Corps topo map also shows this stone. I made no other measurements at this time. I feel that this is the old section corner stone that the Corps surveyors found.
