Note: During completion of this survey no highway conveyances pertaining to the SW 1/4 of the SW 1/4 of Section 33 could be located. The Wisconsin Department of Transportation was contacted and no conveyances could be located by the Department. As no records of fee title acquisition were found, the right-of-way has been shown hereon as a public roadway easement. The right-of-way width has been shown at 41.25 feet as per sketching on highway plats for division job numbers 5307 and 5353 and as shown on Plat of Surveys by Robert M. Lampman and Curtis J. Cummer. It should be noted that the public roadway easement could be only 33 feet wide on the northerly side of the Section line as per minimum statutory width. This survey depicts the greatest possible easement burden.

Note: This Survey Map prepared for the purpose of describing a parcel of land to be transferred between adjacent land owners.
